

Opus Photografix 2016 Wedding Prices

How we work

We offer a range of packages to suit all wants, needs, and most importantly - budgets! As experienced wedding and event photographers we pride ourselves on being able to weave in and out of your guests undetected, capturing the true emotions of the day. All our packages include a pre wedding consultation, where we will plan the fine details of your photography coverage. After the wedding day we select the best images, then edit and re-touch those to perfection. These images will then be supplied to you, in both colour and black & white, on a royalty free DVD.
